ARMOR ATTACK™
FROM ROCK-OLA
YOUR MISSION:
STOP AGGRESSION!
Exciting, challenging video game. Defenders engage in real action combat to save the city. The enemy seems invincible—but you win everytime with excited players and fabulous profits!

ARMOR ATTACK!

The compelling action game everyone wants to play and play—because no one can resist the dramatic, true-to-life audio and visual effects of a fierce military encounter.

Game plan

It looks like a mission impossible. The enemy's tanks are lurking in the streets and swarming over the city. Just when least expected, a helicopter appears overhead, swoops down, and picks off the defenders. The only defense you have is a jeep with a cannon—and the odds seem impossible. But you plunge into the battle because your mission is crucial—THE ENEMY MUST BE DRIVEN OFF OR DESTROYED!

Play begins as your jeep appears on the screen. Enemy tanks also appear and stalk through the streets to move in for the kill. But by "blood and guts" courage and skillful maneuvers, you get into position to "zap" the invaders.

All the while, the defending jeep must be alert for deadly "choppers" that unexpectedly appear overhead, intent on its destruction. The jeep is in triple peril. It can collide with the tank. *Crunch!* Or be blown to bits by a hit from the tank's gun. *Pow!* Or the helicopter rockets can annihilate it in a dazzling explosion. Boom!

The challenge is overwhelming. Excitement mounts. The tanks and helicopters get faster and faster as the game progresses, calling on ever greater skill from the jeep's operator. The battle continues until all jeeps are destroyed. True-to-life combat action at its best!

For one or two players

ARMOR ATTACK ideally lends itself to one or two player mode. When the 2-player button is pushed, second series of jeeps appear. Both players "join forces" and play simultaneously to destroy enemy's land and airborne targets in furious live action combat. Doubles your earnings! Individual and team scores are displayed.

Scoring

Tank body: 20. Tank turret: 30. Helicopter: 100. Bonus is advanced by 10 points per tank. By advancing bonus to 50, player scores an extra jeep which then resets bonus to zero.
